Punching Patterns

durable

Modular, heavy-duty punch and bind equipment, with interchangeable dies for plastic comb binding, wire binding, coil binding, Velobind® and more. This versatility allows your equipment investment to grow as your business grows.

Heavy Duty Punch & Bind Equipment

Wire : Coil : Comb

HD 7700 ELECTRIC PUNCH

The most powerful table top punch in the industry. The HD 7700 will punch up to 45 sheets of 20 lb bond in a variety of punching patterns.

HD 7000 ELECTRIC PUNCH

The first in the industry to offer quick change punching dies and the anti-jamming feature, while punching up to 30 sheets of 20lb bond.

HD 7500 ELECTRIC PUNCH

The big brother to the HD 7000. Same features as the HD 7000 but with a 24" punching width.

OD 4012

The OD 4012 has a punching capacity up to 25 sheets of 20 lb bond. Can use the same dies and binding modules as the popular OD 4000.

OD 4000

The OD 4000 is an electric punch with interchangeable dies, capable of punching up to 15 sheets of 20 lb. bond, able to do plastic comb, wire, and plastic coil binding.

OD 4800

The OD 4800 is the only manual punch with interchangeable dies. With binding modules & dies this compact unit can do plastic comb, wire & plastic coil binding.

A close-up, black and white photograph of a spiral binding machine. The machine is white and has a black metal spiral binding being fed into it. The pages of a book are visible on the left side of the machine. The word 'versatile' is overlaid in red, lowercase letters on the right side of the image.

versatile

Binding Modules for all standard mechanical binding applications, designed to mount on your Rhin-o-tuff punch reducing the amount of workspace needed. Binding modules can also be used as freestanding binding station for two-person operation and increased productivity.

Binding Modules

Wire : Coil : Comb

HD 8370

The HD 8370 Insert-A-Bind inserts and closes in one easy step, eliminating manual insertion of wire into documents.

HD 4270

The HD 4270 Double-O wire closer module can be a stand-alone production unit or mounted on your HD/OD series punch to create an all in one punch and bind station.

HD 4470

The HD 4470 plastic comb binder module can be a stand-alone production unit or mounted on your HD/OD series punch to create an all in one punch and bind station.

HD 4170

Heavy-duty coil inserting unit binds 6mm to 40mm coil and up. The HD4170 is a stand-alone production unit or can be mounted on your HD/OD series punch.

OD 4300

The OD 4300 plastic coil inserter module will bind books using coil diameter up to 1" and handles coil lengths from 6" to 36". The unit mounts on any of the OD series punching machines.

OD 3500 WORKSTATION

Create a binding workstation that does plastic coil, wire, and plastic comb binding all within one compact workspace by attaching any of the binding modules to the OD 3500.

A close-up, black and white photograph of several metal sheets stacked on top of each other. The sheets have various patterns of punched holes, including circular and rectangular shapes. The lighting creates strong shadows, highlighting the texture and depth of the metal.

dependable

When your volumes are too great for table-top punching equipment, our line of automated punching equipment can solve your specific needs. Our sales consultants can qualify your needs to match the right machine to maximize your investment and increase your productivity.

Automatic Punch & Bind Equipment

Wire : Coil : Comb

ALPHA-DOC®

High-speed automatic punch capable of punching 30,000 to 40,000 sheets of preprinted, collated documents with index tabs per hour. Sheet sizes from 5-1/2" x 5-1/2" up to 13" x 13".

DOCU-PUNCH®

Automatic punch capable of punching 20,000 to 30,000 sheets of preprinted, collated documents with index tabs per hour. Sheet sizes from 5-1/2" x 5-1/2" up to 13" x 12".

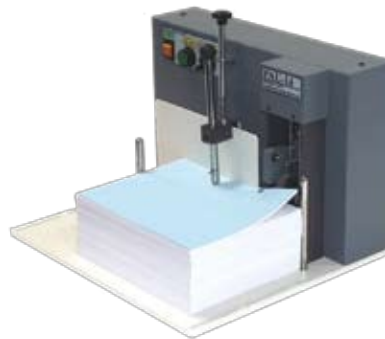

RAF-11

Upgrade your HD series punch into a reliable and inexpensive automatic punch that will punch preprinted, collated documents with index tabs up to 30,000 sheets per hour.

APES

This automatic paper ejector attaches to any HD 7000 or HD 7700 heavy duty punch and increases production by 33% offering a ROI in 10 months.

PAL-14

The PAL-14 increases your production by maximizing the sheets an operator can feed into your punch and minimize jams caused by over loading the punch.

PRE-PUNCHED PAPER

Speed your binding operations for plastic comb, Velobind®, plastic coil, and 3 hole loose-leaf binders with pre-punched paper. Save time and money by reducing labor costs.

Coil Diameter Guide

Thickness of material (Including covers)	Diameter of Spiralastic®	Number of sheets
	4:1 Pitch	
1/4"	6mm	5-35
9/32"	7mm	36-47
5/16"	8mm	48-60
23/64"	9mm	61-70
3/8"	10mm	71-80
7/16"	11mm	81-90
1/2"	12mm	91-100
17/32"	13mm	101-110
9/16"	14mm	111-120
19/32"	15mm	121-130
5/8"	16mm	131-140
43/64"	17mm	141-150
23/32"	18mm	151-160
3/4"	20mm	161-180
7/8"	22mm	181-200
29/32"	23mm	201-210
1"	25mm	211-230
1-1/8"	28mm	231-260
1-3/16"	30mm	261-280
1-1/4"	32mm	281-290

reliable

Spiralastic® plastic coil is the fastest growing segment in mechanical binding. Available in a variety of standard colors or it can be manufactured in custom PMS matched colors. The multiple hole format makes the binding extra strong and the plastic coil's "memory" resists bending, making Spiralastic® great for mailing

Spiralastic® Plastic Coil Punch & Bind Equipment

COILMAC-EPI ELECTRIC

Electric punch and electric roller inserter in one compact unit. Unit has disengageable pins for various paper sizes.

COILMAC-ECI MANUAL

With a manual punch and electric coil inserter, the CoilMac-ECI makes coil binding fast & easy.

CI 3000 COIL INSERTER

The CI 3000 is a compact, mandrel driven coil inserter that is efficient and easy-to-use. Will insert plastic coil 6mm to 30mm coil in 4:1 or 5:1 pitch.

ROLL@COIL

The Roll-a-Coil makes coil inserting surprisingly fast, efficient and easy. A must for all binding centers with large workloads.

PC 200 ELECTRIC CRIMPER

Electric, foot pedal operated, plastic coil cutter crimper. Unit does both sides of plastic coil bound documents at same time, from 6mm to 20mm thick.

INDUSTRIAL CUTTER CRIMPER

Commercial automatic cutter crimper for Spiralastic® plastic coil. Available in electric or pneumatic model and crimps from 6mm to 50mm coil.

Plastic Comb Diameter Guide

Size	Sheet capacity	Quantity per box
1/4"	1-25	100
5/16"	26-45	100
3/8"	46-65	100
7/16"	66-80	100
1/2"	81-100	100
9/16"	101-120	100
5/8"	121-145	100
3/4"	146-165	100
7/8"	166-185	100
1"	186-210	100
1-1/8"	211-235	100
1-1/4"	236-260	100
1-1/2"	261-310	100
1-3/4"	311-360	50
2"	361-425	50

consistent

Turn your thoughts and ideas into an attractive, professional presentation. Plastic comb binding is the choice for those who need small or large documents bound. Customize with your company name and logo to add a unique look to your presentations.

Plastic Comb Punch & Bind Equipment

HEAVY DUTY PLASTIC COMB SYSTEM

HD7700 with the HD4470 comb binding module offers maximum productivity. System can be upgraded to do other types of binding as well.

C800PRO/EPK-21

For years, The EPK-21 has been a standard in the industry, offering high-speed, high-volume professional punching and binding with easy operation.

MEGABIND MANUAL

Manual Plastic Comb Punch and Bind System, handles any paper size up to 14".

SMARTBIND

The perfect match of style and performance. A world-class design incorporates built in handle for easy moving, binds up to 1-1/4" capacity books.

ANYBIND

The Anybind punches and binds plastic comb binding and Double-O wire up to 9/16" and can reopen closed Double-O wire.

MANUAL BINDING MACHINE

Stand alone plastic comb binding unit can bind books up to 14" in length and 2" thick.

Wire Diameter Guide

Thickness of bound materials (including covers)	Double-O	Approximate # of sheets (based on 20lb. bond)
3:1 Pitch		
1/16"	3/16"	30
1/8"	1/4"	45
3/16"	5/16"	60
1/4"	3/8"	75
5/16"	7/16"	90
3/8"	1/2"	105
7/16"	9/16"	120
2:1 Pitch		
1/2"	5/8"	135
5/8"	3/4"	160
3/4"	7/8"	190
7/8"	1"	220
1"	1-1/8"	250
1-1/8"	1-1/4"	280

efficient

We offer a complete line of wire binding equipment and supplies with a full color palette of wire choices, including everything you need to handle all your wire binding requirements. Traditional Double-O wire is available in cut lengths or spools. Spiral-O wire turns your plastic comb punch into a wire binding punch.

Wire Punch & Bind Equipment

PB 3300

Versatile electric punch with electric wire closer is simple to operate and finishes documents up to 1-1/4" thick.

WIREMAC-DUO

The WireMac-Duo is an "all in one" Double-O wire punching and binding machine. It punches and closes both 3:1 and 2:1 pitch wire in one compact unit.

ANYBIND

The Anybind punches and binds Double-O wire and plastic comb binding up to 9/16" and can reopen closed Double-O wire.

HC 8318

An 18" manual wire closer that inserts 3:1 wire including a wire hanger into the document while closing the wire at the same time, compact design at an affordable price.

HC 8000

HC 8000 wire closer can be used with any electric or manual punch to produce professional wire bound documents.

AUTOMATIC DOUBLE-O-WIRE BIND

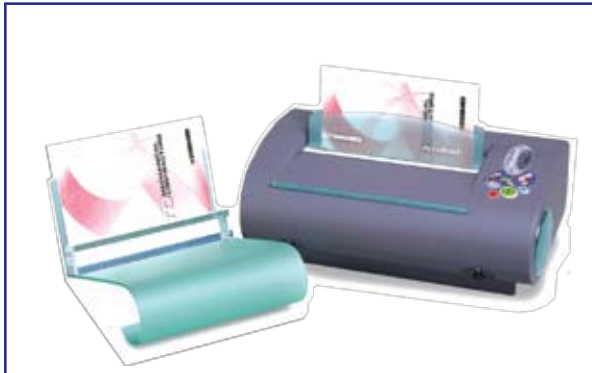

This high speed, instantly adjustable binding machine closes books 1/4" to 1-1/4" at a rate up to 1000 books per hour.

A close-up photograph of a thermal binding machine. The machine's rollers are shown applying black, textured tape strips to the edges of a stack of papers. The papers are held together by a metal frame. The background is a dark, wood-grain surface.

professional

Thermal binding made fast and simple. Produce professionally bound presentations in large quantities without punching. Tape binding offers high quality documents in a system that is simple to operate with the ability to bind books up to 325 sheets without punching. Tape binding is a great alternative to traditionally bound documents. VeloBind® has been the choice of legal professionals for years offering a professional look that is tamper proof.

Thermal Binding : Tape Binding : VeloBind®

ACCUBIND PRO TAPE BINDING

Compare to Fastback, with the push of a button, the AccuBind Pro can bind a document up to 1-1/4" thick in 20 seconds. Our linen cloth tape offers a more durable bind than Fastback.

AUTOBIND

Unique cassette system will bind 40 documents in a 60 second cycle and is able to produce up to 2400 perfect bound documents per hour. Perfect for large volume binding applications.

MULTIBIND

The Multibind is a desk top system designed for general office use and will bind up to 2" worth of documents in 60 seconds. User friendly design eliminates hole punching and binding.

SYSTEM 3 PRO VELO BINDING

State of the art in VeloBind® production, the System 3 Pro offers maximum productivity in a desktop binding system, accommodating documents up to 3" thick.

SYSTEM 2 VELO BINDING

Mid-volume users benefit from convenient electric punch and bind machine. The System 2 will accommodate documents up to 2" thick.

SYSTEM 1 VELO BINDING

The System 1 is for low to mid volume users. The manual punch and electric hot knife binder will bind documents up to 1" thick.

cost efficient

We stock a complete line of binding supplies, all manufactured to the highest quality. Our cost effective pricing will keep your purchasing cost low and warehouses across the country offer you “just in time” delivery to help reduce inventory costs. We manufacture custom sizes, custom printed binding combs, and custom colors to meet every binding supply need.

Binding Supplies

CUSTOM & PLAIN PLASTIC COMB

Receive all the affordable advantages of Spiral's plastic comb binding supplies. Plain or imprinted with your company name & logo that will create a look that is uniquely yours.

SPIRALASTIC® PLASTIC COIL

The hottest trend in document finishing; coil is available in a wide range of color choices, durable for mailing and allows pages to turn 360°.

DOUBLE-O WIRE

Double-O wire is available in traditional 3:1 and 2:1 pitch, a wide variety of colors and sizes, cut lengths as well as spools designed to work in all automatic wire binding machines.

SPIRAL-O® WIRE

Unique to spiral, simply punch documents with your existing plastic comb punch and crimp wire with an inexpensive wire closer.

VELOBIND®

VeloBind® offers a permanently bound document with an attractive professional look, that is easy to achieve. Available in a variety of sizes and colors.

TAPE

Linen cloth tape is strong and has a flexible lay-flat characteristic, binding documents up to 1-1/4" thick in a variety of colors.

unique

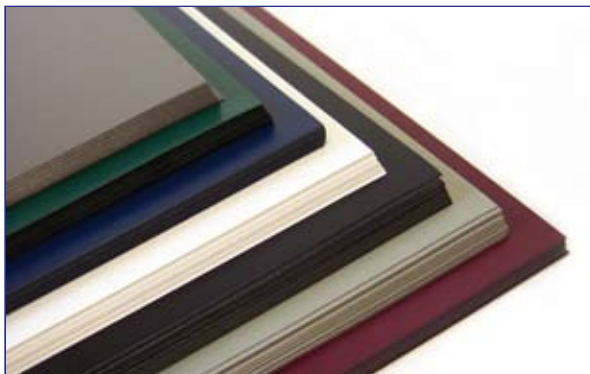

We have you Covered! Clear covers, linen covers, poly covers, and more. Our cover selection is guaranteed to create the professional image you are looking for. Add custom decoration to any cover material for a truly unique appearance.

Presentation Covers

GLOSS & CLEAR MATTE COVERS

Clear Covers are available in a variety of mils. Perfect if you want to protect your desktop laser, ink jet printer, & color copier output.

COMPOSITION "VINYL" COVERS

The standard in the industry, this premium "vinyl like" cover will give your presentation an executive look. Composition covers are available in 9 different colors.

FOIL STAMPED & EMBOSSED COVERS

Spiral offers custom foil stamping and embossing on a variety of standard and custom cover stocks.

HARD COVERS

When only the finest will do, select the Prestigious Hardcover, or our Litho Hardcover which are specifically designed with your needs and budget in mind.

THERMAL COVERS

Custom, plain or transparent thermal covers are available with U-CAT® thermal adhesive pre-applied to spine for a superior bind.

SILKSCREEN & OFFSET COVERS

Spiral offers Spot PMS colors or four-color process custom covers. We can also offer custom cut sizes, custom windows, scoring, and hole punching.

precision

Our line of paper cutters range from manual guillotine cutters to electric desktop models to large hydraulic floor standing units. All offer user-friendly operation with safe, precise, cutting and trimming. Our experienced sales professionals can recommend the correct cutter to match your needs, with an emphasis on production and safety.

Paper Cutters

TRIUMPH MODEL 5550

The 5550-EP is a 21-1/2" programmable hydraulic paper cutter model that excels in offset and digital markets.

TRIUMPH MODEL 430-EP

Push-button automation, the 430-EP offers an electronically controlled power back gauge, stores up to 9 programs of 9 steps each, with optical cutting line and electric blade drive.

TRIUMPH MODEL 4810

The 4810 semi-automatic 18-1/2" cutter is fast and precise. Electric blade drive and precision measuring scale gives the 4810 high quality, accurate cuts every time.

PC-45 PAPER CUTTER

The PC-45 is a high-quality paper cutter designed to bring new levels of efficiency. It offers a cutting capacity up to 17.7" wide with an illuminated cut line and a maximum lift of 2.7".

PC-S43 DESKTOP PAPER CUTTER

The PC-S43 Electric Paper Cutter offers a compact design, automatic operation and the ability to handle nearly an inch of paper in thickness by a full 17" width.

TRIUMPH MODEL 4700

18" manual tabletop paper cutter with the latest safety features available and rugged, all-metal construction.

Booklet Makers : Face Trimmers : Collating Systems

SPF-9 IN-LINE STAPLER/FOLDER

The SPF-9/SPF-9A booklet maker, combined with up to three QC-S10 collators and the FC-9 Face Trimmer, will provide high production speeds and quality booklets.

MODEL 82/83 BOOKLET MAKER/TRIMMER

The high-speed Booklet maker 82 finishes up to 3,000 booklets per hour. Add collators and face trimmer for a fully automatic system.

F-40 BOOKLET MAKER

The F40 Booklet maker along with a collating tower, is the perfect entry-level unit for automated in-house booklet making to speed production time.

SPRINT 3000 BOOKLET MAKER

The Sprint 3000 booklet maker produces professional-looking booklets while greatly reducing your document finishing costs. Operates at speeds up to 1,500 booklets per hour.

M2 DESKTOP BOOKLET MAKER

The M2 Booklet maker is a compact, manually fed machine that is perfect for short run booklets up to 80 pages.

W106 RAPID ELECTRIC STAPLER

The W106 rapid electric stapler is bench mounted for fast saddle stitching. An optional group stapling kit allows multiple staplers to operate side by side with a single foot pedal.

Paper Drills : Joggers

HL-3 HYDRAULIC DRILL

Fully automatic hydraulic lift and 2-1/2" drilling capacity. The HL-3 is a workhorse offering years of dependable service for high volume shops.

FMMP-3 PNEUMATIC DRILL

The FMMP-3 is a 3-spindle drill with pneumatic power and foot pedal operation. Powered by your in-house air or available with our select compact compressor.

FM-2 FLOOR MODEL DRILL

Maximum production at an affordable price, the FM-2 with 2" drilling capacity features mechanical lift table with a right to left / left to right traversing table.

EBM-2.1 EZ GLIDE BENCH DRILL

the EBM-2.1 has an EZ-Glide table system allowing quick movement from hole to hole for multi-hole drilling.

JOGFAST JOGGER

For higher production needs, the floor model PJ-100 Jogger will jog a 4" lift of paper in a vertical position or a horizontal position to suit your operating requirements.

LJ-4 HEAVY DUTY TABLETOP JOGGER

Large table allows for perfect alignment of all forms of paper products. The LJ-4 will jog a full ream of 17" x 11" paper.

Perfect Binding : Padding : Round Cornering : Business Card Cutters

BQ-140 BINDER & PADDER

With an automatic cover clamping and spine roughening system, this binder is highly productive in both perfect binding and padding applications.

STACKWAGON

Conveniently transport large volumes of paper in mailrooms, offices, print shops, schools and hospitals.

ROUND CORNERING MACHINE

The Model 50 Floor Model is for larger operations. Featuring hands-free operation and hold down clamp.

ROUND CORNERING MACHINE

The Model 20 Desk Top round cornering machine comes with your choice of cut radius: 1/8", 1/4", 3/8", or 1/2".

HS-2000-AB BUSINESS CARD SLITTER

The HS2000AB cuts 10 up or 12 up business cards and accurately collects cards into bins that hold 1000 cards, ready to box.

CARDMATE BUSINESS CARD CUTTER

Turn your desk top printer into an instant business card maker. Low cost and easy to use, this machine will pay for itself in one job.

Shrink Wrap

BABY PACK SL

The Baby-pack SL is an entry level one step shrink wrap system, capable of wrapping packages up to 9-1/2" x 13-1/2" x 4" high, at a rate of 4 to 6 per minute.

DIBI 4255 EVOLUTION

With packing speeds of 10 to 14 per minute, the Dibipack Evolution Plus is an economical and cost effective shrink-wrapping system.

PPG 1622 LBAR SEALER

Electronically controlled impulse sealing, heat-shrink tunnel achieves maximum results with the lowest use of electricity, includes discharge roller.

SHRINK TUNNELS

Fully re-circulating air chamber with directional airflow, adjustable velocity, and state-of-the-art digital controls. We have tunnels designed to meet your specific needs.

COMBO

Electronically controlled impulse sealing, heat-shrink tunnel achieves maximum results with the lowest use of electricity, includes discharge roller.

FILM

Shrink-wrap maintains product integrity by keeping it clean and protected. Spiral has a complete line of P.V.C. and polyolefin film for all your packaging needs.

Shredders

DESTROYIT 2602 HIGH SECURITY

When high security document protection is needed to secure your most important reports, documents and computer print-outs.

DESTROYIT 4107 HIGH CAPACITY

Updated design with extra-wide feed opening and large volume cabinet provides efficient shredding for an entire office.

DESTROYIT 3802 CENTRALIZED

This Destroy-it series efficiently safeguards HIPPA documents and all sensitive documents for businesses such as financial institutions and insurance agencies.

DESTROYIT 2402 MID-SIZE

Ideal solution for departments with multiple users or single users with large shredding requirements.

DESTROYIT 2602 MID-SIZE

Compact and powerful, with whisper quiet operation. A large range of features makes them very easy to use.

DESTROYIT 2250 PERSONAL

The model 2250 offers increased paper capacity and an integrated window that shows you when to empty the shred bin.

Pouch Laminating & Supplies

MODEL 3500

High-speed, six heated rollers and digital controls, designed to work with ink jet and laser printer output, color copies and photographs. No carrier needed.

MODEL 330R

The latest in 4 roller pouch laminators, time saving, carrier free operation, plus the ability to reverse rollers. No carrier needed.

MODEL 7000A

Easily laminates the smallest ID cards to sheets up to 12" x 18" with its 13-1/2" opening. Made in the USA.

XL44

The XL Mounter/Laminator does mounting, mounting & laminating, or laminating only, with materials up to 1-1/2" thick and up to 44" wide.

POUCHES

The highest quality laminating pouches available in all sizes and thicknesses to meet any requirement, compatible with all brands of pouch laminators.

ID SUPPLIES

From custom lanyards, magnetic clips, badge reels, and luggage straps, we have a full line of identification accessories.

Laminating & Mount Board Trimmers

EXCALIBUR TRIMMER

Will cut all sheet materials used in graphics production. The Excaltibur cuts vertically, providing the ultimate in space saving convenience.

BIG BENCH/JAVELIN PRECISION

Available in sizes from 40" wide to 200" wide, the Big Bench and Javelin Trimmer are designed to work with exacting precision.

SABRE BOARD TRIMMER

The Sabre offers a standard of straight, square, and clean cutting that is impossible to achieve with a craft knife and straight edge.

TECNIC & TABLE EDGE ROTARY TRIMMER

The two tungsten steel cutting wheels give exacting performance with two way cutting on all 13 sizes and two styles.

ROLL-A-BLADE ROTO TRIMMER

With a self-sharpening tungsten steel blade, the Roll-a-Blade Trimmer offers effortless and professional laminate trimming.

FOAMBOARD

Foam board is available in white or black, various thicknesses, uncoated or with heat activated adhesives, ideal for mounting photos and graphics.

Roll Laminating & Supplies

DIGITAL 44

A 44" wide heated roll laminator, the Digital 44 offers the freedom to simultaneously mount and laminate.

FOLIANT

The affordable Foliant laminator provides the perfect solution for high quality single side lamination of book covers, brochures, and more.

25" INDUSTRIAL

The HD-25 "Workhorse" is a high production laminator that is trouble free, easy to use, versatile, and easy to maintain.

MIGHTY LAM

Perfect for printers, copy shops, graphic departments, and more. This production laminator is high on productivity, low on cost.

EDUCATOR

The 25" Educator was designed for schools but is well suited for anyone looking for a laminator that is easy to use and needs to do 1.5 and 3 mil film.

EASY-LAM II

Simplified, easy to use controls with 27" film capacity, the Easy Lam II will laminate 1.5 and 3mil film. Options available for 5 mil film and a key switch to prevent unauthorized usage.

Index Tabs

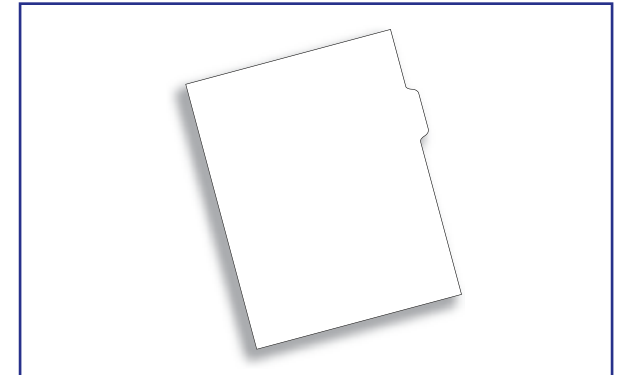

CUSTOM INDEX TABS

Designed to meet your exact specifications, we manufacture all styles of custom index tabs, from custom sheet sizes to colored mylar on the tabs.

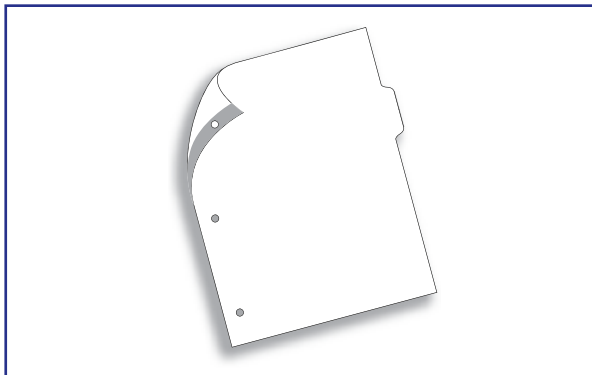

PRE-PRINTED STOCK TABS

Pre-printed index tabs are available collated or uncollated in a variety of titles including numbers, letters, months, and exhibit tabs.

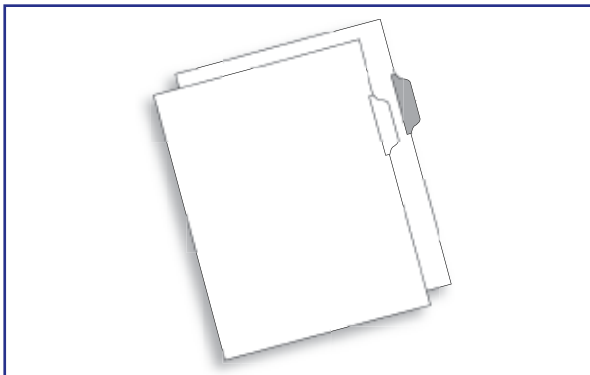

SERIES 1000 COPIER TABS

Popular, economical bright white plain paper tabs, available in 90# and 110# index for all high-speed copiers.

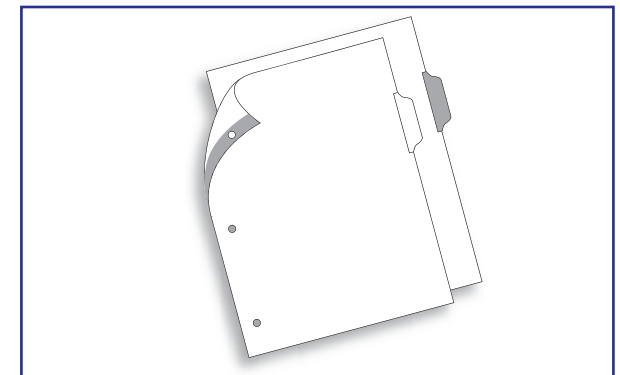

SERIES 2000 COPIER TABS

Similar to our series 1000 bright white plain paper tabs but with indent reinforced binding edge.

SERIES 3200 COPIER TABS

Durable Trilar tabs, available in clear or assorted colored, toner-receptive mylar, on our bright white index stock.

SERIES 4200 COPIER TABS

Top of the line, durable Trilar tabs, plus Indent reinforced binding edge on our bright white index stock.

Loose-leaf Binders & Accessories

CUSTOM VINYL BINDERS

Manufactured to your requirements. Custom case sizes decorated with silk-screening, four-color process, and foil-stamping.

ENTRAPMENT BINDERS

Custom color copies, sealed all four sides behind clear vinyl, offers you the ability to create great looking four color short run custom binders.

CLEAR OVERLAY BINDERS

Our premium view binders are manufactured with heavy weight chipboard and vinyl, making them a more durable product.

TURNED EDGE BINDERS

Litho wrap or book fabric hard cover case binders, custom printed with silk-screening, four-color process, or foil-stamping.

VINYL BINDER ACCESSORIES

Sheet protectors, CD holders, business card pockets; Spiral has everything you need to organize your loose-leaf binders.

REINFORCED 3-HOLE PAPER

Our reinforced papers are indented to lay perfectly flat and run in copiers or laser printers. Protect your documents against tear-outs.

Poly Products

POLY TWO-PIECE COVERS

Available in a variety of colors and finishes, poly is durable and attractive. Add custom silk-screening or foil-stamping for a unique look.

POLY LOOSE-LEAF BINDERS

Quality poly binders are durable and designed for long-life. Available in an assortment of colors, finishes and gauges.

POLY INDEX TABS

Available in styles such as overlapped, square or round cornered, step cut or custom tab shapes in an assortment of colors, finishes, and gauges.

POLY BOXES

Custom poly boxes can organize information, bound documents, samples, and files into one neat package to be presented to a client.

POLY FOLDERS

Strong and durable, they can be screen printed, four-color processed, or foil-stamped and are available in different styles and sizes.

POLY COVERS

Available in translucent polypropylene or opaque polyethylene in different colors and finishes. Our most popular, the clear/matte is scratch & fingerprint resistant, durable & attractive.

Presentation Folders & Packaging

CUSTOM POCKET FOLDERS

We manufacture and print folders of every kind, hundreds of styles, sizes and pocket capacities to fit your needs.

INSTA-FINISH POCKET FOLDERS

Create your own full color pocket folders on demand. Color copies, brochures, or laser printed document can be turned into a custom pocket folder in seconds.

TAX FOLDERS

Custom tax folders increase a client's perception of the value of your tax preparation services.

MEDIA PACKAGING

CD-ROM and DVD's put your ideas and products in your client's hands. We offer solutions for your multimedia packaging.

TOTE BOXES

Designed to hold a combination of loose materials in one package with coordinating design features, totes can be custom manufactured and printed to your exact specifications.

EASI-TANG® TAX FOLDER

The revolutionary Easi-Tang® Tax Folder makes putting together tax returns a snap. Revisions are quick, easy and limitless. Wide variety of stocks and custom processes to choose from.
